

WHY CHOOSE MAILERS?

Our mailer product line enables you to realize significant cost savings compared to using boxes to ship your products.

- Labor savings: it is 3-4x faster to pack product in a mailer vs. a box
- Packaging cost savings: no cartons, tape, dunnage/void fill, protective packaging
- Shipping cost savings: significant cost savings using mailer vs. a carton due to DIM weight shipping cost structure
- Warehouse space reduction: 10x reduction in warehouse space allocation
- Curbside recyclable option available

Contact your sales rep to see how you can save money!

Made from recycled and recyclable paper, this mailer is lined with an innovative honeycomb paper structure — a patent pending cushioning material that offers substantial benefits over traditional wrapping materials, including bubble, bubble-on-demand, foam, and other paper materials. Curbside recyclable, easily disposed with all your other recyclable materials.

Ecolite® bubble mailers provide outstanding low cost shipping protection for a wide variety of products. Ecolite mailers are made from golden kraft paper with Duraliner bubble lining. Tamper-evident hot-melt self-seal closure helps ensure content security. Custom print option is ideal for advertising, promotional mailings and branding.

XPAK bubble mailers combine the tear, weather and puncture resistance of a courier envelope with the cushioning of a Duraliner bubble lined mailer. XPAKs are made from 100% polyethylene and the white outer surface is ideal for high-quality printing.

Fastpak courier envelopes feature polyethylene with superior tear and puncture resistance. The gray inner layer provides document confidentiality and the white outer surface is ideal for high quality printing.
